Précaution: couper le courant du circuit concerné ou de l'installation électrique lors du branchement

Cet appareil de classe II peut être installé dans les volumes 2 et 3 de la salle de bains (en aucun cas, il ne peut être installé au dessus de la baignoire ou dans le volume du bac à douche). Si l'appareil est équipé d'un socle 2P+T, celui ci doit impérativement se trouver dans le volume 3 (à plus de 0.60 m de la baignoire ou de la douche).

Si le câble extérieur souple ou le cordon de ce luminaire est endommagé, il doit être remplacé exclusivement par le fabricant, son service de maintenance ou toute personne de qualification équivalente, ceci afin d'éviter tout risque.

Le bloc de jonction n'est pas inclus. L'installation peut exiger l'avis d'une personne qualifiée.
